7225 PEPPERMILL PARKWAY • NORTH CHARLESTON, SC 29418

Welcome to MW Millworks; locally owned and operated. We are manufacturers of high quality windows, doors, shutters, turnings and a wide range of custom millwork. With a dedication to historic preservation and restoration, we have taken pride in serving downtown Charleston and surrounding areas for the past 29 years.

Our many years of millwork experience and versatile machinery allows us to reproduce virtually any custom millwork. With a multitude of patterns and the ability to grind our own profiles, we can match any moulding, custom door or window profile. We also have the capability to run straight, round or elliptical patterns. Whether it be an existing piece of millwork or a detailed drawing, we can match it.

Using historically accurate joinery combined with modern tools and hardware, we can satisfy our customers' every need. We manufacture solid porch columns, balusters and handrails. We reproduce historic interior and exterior doors, as well as double hung and casement windows. We manufacture DP (Design Pressure) 50 entrance units, both inswing and outswing, in our North Charleston facility. Solid hardwood louvered and panel shutters and custom architectural millwork of all kinds are also manufactured here.

With quality craftsmanship and a strong dedication to customer service, we are qualified to meet all your custom millwork needs at faster than industry standard lead times.

Please visit our website to browse our many projects throughout the greater Charleston area.

DOORS

DOORS (CONTINUED)

MW MILLWORKS manufactures interior and exterior doors, as well as door units. With a variety of profiles, panels, glass and wood species, the possibilities are limitless. Virtually any size and design are available, as well as custom design pressure (DP50) door units.

GATES

WINDOWS

MW MILLWORKS offers solid wood sash in any size and orientation. We manufacture louvered and raised panel shutters, along with complete window units. We can replicate any sash, shutter or window unit from an existing sample or detailed drawing with the highest quality in mind. We also offer several glass and glazing options to suit energy efficiency, code regulations and restoration integrity.

STOREFRONTS

OUR VERSATILITY allows us to create all kinds of custom millwork. We have manufactured many custom storefronts all around Downtown Charleston, Mt. Pleasant, and Kiawah's Freshfield Village. Let our craftsmanship, quality, and attention to detail help attract customers to your retail space with a custom storefront from MW

SHUTTERS

MADE TO STAND THE TEST OF TIME.

We manufacture solid hardwood shutters made of the highest quality materials. Available in a variety of custom shapes, sizes and styles.

IMPACT HARDWARE SPECIFICATIONS

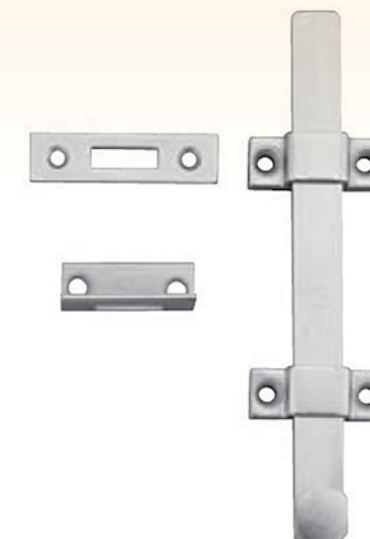

HLS® 9000 Features & Benefits

- Stainless Steel is highly corrosion resistant.
- Retractable hooks create a clean look on the door and jamb when open.
- Two point locking system allows for optimum locking point contact with the jamb to assure passing the most stringent forced entry testing.
- Mishandling device prevents retractable hoods from accidentally firing and potentially damaging the hardware, door or frame.
- Manual lock operation eliminates inadvertent locking of the door.
- Limited Lifetime Mechanical Warranty
- Available in 30 mm and 35 mm backset
- Full-length faceplate available to cover continuous.
- Faceplate with radius at top and bottom available for simplified door edge preparation on tall doors.
- Easily adjustable strikes help solve the problem of door panel movement or settling of the house
- Exceeds the current 100,000 operational cycle testing requirements.

Sliding Door Trim Features & Benefits

- Solid brass forged handles and backplates.
- Single design theme means corresponding finishes and styles for both sliding and hinged doors.
- Spring assist for easy locking of the system.
- Locked or unlocked status of the door can be easily seen from a distance due to 90 degree cylinder operation.
- Matching dummy trim available for passive panel door.
- Resista® finishes have a limited Lifetime Finish Warranty.

IVES® SB453 Surface Bolts

- Surface bolt has 1-3/16" throw for maximum security
- Strong tension springs prevent creep
- Ideal for all types of doors
- Available 8" and 12" lengths
- Units packed with standard wood screws and machine screws to meet most field conditions
- Units packed with both a universal top strike (US) and a mortise bottom strike (MS)

Certifications

- Meets ANSI A156.16 L84161
- UL Listed for 3 hour fire doors, up to 10'
